ABSTRACT

Every health care system is built on a complex network of care processes and pathways. The quality of the care delivered by the system depends to a large extent on how well this network functions, and how well the people who provide and manage care work together.

Open Access Statement

The Research Society was founded for sharing and propagating the research activity and knowledge gained through it, for the betterment of the patient care and society at large.

Keeping this fundamentals in mind the journal has an open access policy.

This is an open access journal, and articles are distributed under the terms of the Creative Commons Attribution-NonCommercial-ShareAlike 4.0 License, which allows others to remix, tweak, and build upon the work non-commercially, as long as appropriate credit is given and the new creations are licensed under the identical terms.
